1. The following is an examiner's statement of reasons for allowance: The specification does show (for example, [0010] and [0011]) to establish the specific values of the second range by reviewing the data gathered on melts already cast. The specification also discloses (see, for example, [0004] and [0014]) that the use of mathematical models in the instant process is optional. There is no prior art showing the claimed feature of establishing a second range of relative concentration limits for the at least two elements of the melts as a subset of the first range of relative concentration limits such that the melt is castable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kuang Y. Lin whose telephone number is 571-272-1179. The examiner can normally be reached on Monday-Friday, 10:00-6:30,.
